

# Kimochis<sup>®</sup>

toys with feelings inside

Kimochis™ redefining the way health professionals, caregivers and teachers approach social and emotional education for academic and life success.

Plushy Feely, the Australian distributor of Kimochis™...Toys with Feelings Inside and Wooldridges Victoria together with Bellbird Kid-Z Educational Resources are delighted to invite you to an exclusive event highlighting the importance of social-emotional learning.

Dr. Karen Hansen, Post Doctoral Research Fellow, Swinburne University will introduce internationally renowned communication expert, Ellen Pritchard Dodge, M.Ed CCC-SLP, the Educational Director for Plushy Feely Corp.

Meet Ms. Dodge and learn about an exciting and effective new tool for helping children develop their emotional and social skills. *"We need to make time for the fourth 'R'—reading, writing, arithmetic and relationships,"* says Ellen Pritchard Dodge, M.Ed CCC-SLP. *"Teachers are pressured to focus on academics and raise test scores. The intentional, direct instruction of social and emotional skills develops a strong character foundation to boost academics while creating emotionally healthy and confident kids."*
