Ellen is a recognized leader in character education and communication skills in the classroom. Ellen has published numerous books and articles, has given over 3000 workshops both nationally and internationally, and teaches in public schools in Northern California where her communication curriculum won a National Character Education award. Ellen with Dr. William Pollock, author of Real Boys, collaborated to create classrooms that are academically and socially engaging for boys through the Supporting our Sons organization.

Dr. Karen Hansen, Postdoctoral Research Fellow, Swinburne University of Technology, will introduce Ellen.

In an excerpt from an article, "[Emotional Intelligence in Schools](#)" Dr Hansen wrote.....

"Many educators intuitively believe that enhancing the social and emotional needs of students will result in desirable outcomes not just for the student but also the school community. Recent research in the area of emotional intelligence (EI) now provides empirical support for this notion."
